

Featured Alumna: Nenye OKORO, Class of 2014

Nenye OKORO '14 currently works at Google as an Engineering Program Manager on Alphabet's Regulatory Response and Investigation Strategy team. In this role, she supports legal teams by orchestrating engineering requirements in response to regulatory inquiries. Recently, she played a key role in managing the largest location-related privacy settlement in the United States, which involved significant updates to Google Maps'

Location History and Web and App Activity.

A Duchesne lifer, Nenye signed with St. Louis University to play NCAA Division I volleyball during her senior year and she competed at the collegiate level all four years. She earned her undergraduate degree in Health Informatics, a multidisciplinary field that combines healthcare, information technology, and data science to enhance the quality and efficiency of healthcare delivery. As a student-athlete, Nenye learned valuable lessons in leadership, teamwork, and resilience, which she applies in both her personal and professional life.

In her [keynote speech](#) at this year's Athletics Banquet, Nenye reflected on how Duchesne prepared her for success and how the *Goals and Criteria of the Sacred Heart* “serve as the foundation of who I am today and who I was in sports.”

Nenye is currently enrolled in a master's program in Computer Science with a focus on Artificial Intelligence at the University of Southern California. “Duchesne instilled in me a love for learning, critical thinking, and most importantly: the pursuit of knowledge.”
